

UNIVERSITY OF MARYLAND

Commencement

MAY 20-22, 2024

Hail! Alma Mater

Hail to thee, Maryland!

Steadfast in loyalty,

For thee, we stand,

Love for the Black & Gold

Deep in our hearts we hold,

Singing thy praise forever,

Throughout the land.

SPRING COMMENCEMENT / MAY 20, 2024

Dear Classes of 2023 and 2024,

Congratulations! The conferral of your degree is a milestone achievement that brings great pride to your family, friends and the entire University of Maryland community.

We celebrate this occasion with incredible excitement and enthusiasm. You have demonstrated great perseverance, reached intellectual and personal milestones and made positive contributions to our local community and beyond.

The faculty, staff and administration of the university are confident that you are prepared to move fearlessly forward and continue a path of achieving excellence in everything you do. Now is the time to make your mark in addressing the grand challenges of our time, from safeguarding our democracy to addressing climate change and ending gun violence.

Along the way, take heart in your new family of Terp alums, more than 414,000 strong. We are all connected by our love for this university, our innovative spirit and our commitment to serving the public good. We will be with you every step of the way.

My very best wishes to you and your family and friends.

Sincerely,

A handwritten signature in black ink that reads "Darryll J. Pines". The signature is written in a cursive, flowing style.

Darryll J. Pines
President, University of Maryland
Glenn L. Martin Professor of Aerospace Engineering

On behalf of the University of Maryland Alumni Association, congratulations on your graduation! I'm honored to welcome you into our family of 414,000 Terp alumni.

You and your graduating class have been put to the test, and you've passed with flying colors. You are now officially a graduate of the University of Maryland, and I want to take the opportunity to make you a promise:

Your Alumni Association is going to be here for you, because we are fearlessly committed to your success.

I encourage you to make a commitment to your alma mater by joining your Alumni Association. By becoming a Terp for life, you will leave your own legacy and show your support for the University of Maryland.

Your Alumni Association membership will help you stay in touch with friends you made on campus, prepare you for your career through networking and professional development, and keep you informed about alumni and campus news. You can also take advantage of our newly expanded member benefits, including career and industry networking and lifelong learning opportunities to help you develop both professionally and personally.

It is my wish that as alums, you will wear our colors proudly and continue to demonstrate to the world the high-quality education Maryland provides. In turn, Maryland will continue to educate the country's brightest students, pursue cutting-edge research, encourage innovation and entrepreneurship, explore the arts and defend our athletics titles. As a student, and now as a graduate, you will always be a Terp and always have a home at Maryland at the Samuel Riggs IV Alumni Center—be sure to visit us when you come back to campus in the years ahead.

Now go forth with the strength of your Maryland degree and remember that your Alumni Association is here to help you stay active, stay informed, stay connected and stay forever fearless.

Go Terps!

A handwritten signature in black ink that reads "Laurie A. De Armond". The signature is written in a cursive, flowing style.

Laurie A. De Armond '94

Speaker Biographies

TOLULOPE AJAYI
STUDENT SPEAKER

In 2020, while Tolulope Ajayi was transitioning from a virtual final semester of high school to a remote freshman year at the University of Maryland, she watched on screens as communities across the nation protested racial injustice. With COVID-19 lockdowns in full force, news broadcasts gave her a window into a tumultuous world—and the spark to help improve it.

“As a woman of color seeing what was happening in our country, I knew without the news, these stories would just be swept under a rug,” she said. “I just have always had this inherent need to help people and want their stories to be told.”

Now Ajayi is preparing to shine a light on those stories as she graduates with a bachelor’s degree in broadcast journalism and minors in law and society and Spanish.

The Howard County native has “always been a big talker,” she said, with her chattiness getting her in trouble during kindergarten naptimes. A Banneker/Key scholar and member of the University Honors program, she channeled that curiosity into her journalism education at UMD, including at university publications—The Black Explosion, The Diamondback and Capital News Service (CNS)—as well as WJLA-TV and NBC News.

At each stop, she delved into difficult topics, whether through coverage on youth

crime in D.C., Israel-Hamas war protests on the National Mall or President Joe Biden’s son Hunter’s arraignment.

“It really allows people to trust you when you can do things with an eager mindset,” she said. “I feel like that has really prepared me for a future as a journalist.”

That attitude has helped her earn several accolades, including top finishes in the Chesapeake AP Broadcasters Association contest and the Hearst Journalism Awards Program.

“She will take a piece and report it and write it and produce it in such a way that it really humanizes stories that are difficult to understand or difficult to connect with,” said Mel Coffee, CNS Broadcast Bureau director and Ajayi’s mentor.

After graduation, Ajayi will work as a reporter and anchor for a local station in Tucson, Ariz. Even as newsrooms contract around the country, it’s important to her to persevere, just as she and the rest of the Class of 2024 did through the pandemic.

“It felt like the world was literally ending while we were ending high school. We found each other and we were able to get through it,” she said. “With community, we’ll always get through.”

CAMILA VALERIA SOLER
UNIVERSITY MEDALIST

After Camila Soler’s grandfather was forced to flee armed conflict in Peru in the 1990s, the once-successful metallurgical engineer found few options to provide for his family upon arriving in California. He became a gardener, a grueling job made even tougher by the discrimination he endured—including assault and the burning of his work truck—and the fear of police that kept him from reporting the crimes.

“My passion for immigration law stems from hearing that story,” said Soler. “I want to help families in similar situations, who have very valid fears, who don’t know their rights.”

Now, she’s heading to law school in the fall to pursue her dream of providing free and affordable representation for immigrants, and to research and reform policies.

The criminology and criminal justice (CCJS) and psychology double major, who earned a 4.0 GPA, set herself up well throughout her time at UMD. She joined the pre-law fraternity Phi Alpha Delta; was selected for the CCJS Honors Program, where she conducted original research; and interned at the Virginia Indigent Defense Commission, the Harvard Immigration and Refugee Clinical Program, and an immigration law firm in Houston.

“The law should protect everyone the same way, but it doesn’t,” she said, noting that because immigration is a civil matter, not criminal, those who are sent to court

aren’t entitled to a free appointed attorney.

In addition, she helped found student group Latina Pathways, now a registered nonprofit. Through education, advocacy and fundraising, it supports Latine immigrants on the path to college, including donating classroom supplies to high school ESOL classes and creating a scholarship for undocumented Terps.

“Higher education opens so many doors,” said Soler, who is proudly Peruvian and Colombian. “I want the Latine community—and other underserved or marginalized communities—to have equal opportunities.”

Growing up in six different countries due to her father’s engineering job gives Soler a unique perspective on being an outsider. She’s taken the empathy and appreciation for different cultures she gained to make others feel welcome at UMD, including serving as a Maryland Images tour guide for the university, as well as sharing her visual disability openly to reduce stigma and encourage others to get the accommodations they need.

“Her ability to organically incorporate these parts of her identity ... helped to create a more inclusive and welcoming classroom environment,” said Lecturer John Kim, who invited Soler to be a teaching assistant after she took his legal writing class. “She represents the very best of what it means to be a Terp.”

THE HONORABLE WES MOORE COMMENCEMENT SPEAKER

Wes Moore is the 63rd governor of Maryland. He is the first Black governor in the state's history and just the third African American to be elected to the post in the United States.

Born in Takoma Park, Md., Moore experienced the tragic death of his father from a rare but treatable virus when he was 3 years old. His family then moved to the Bronx to live with Moore's grandparents before returning to Maryland at age 14.

He is a graduate of Valley Forge Military Academy and College, where he received an associate's degree and was commissioned as a second lieutenant in the U.S. Army. Afterward, he went on to earn his bachelor's in international relations and economics at Johns Hopkins University, where he graduated Phi Beta Kappa.

While at Johns Hopkins, Moore interned in the office of then-Baltimore Mayor Kurt Schmoke. As the university's first Black Rhodes Scholar, he earned a master's degree in international relations from Wolfson College at Oxford.

In 2005, he deployed to Afghanistan as a captain with the 82nd Airborne Division, leading soldiers in combat. Immediately

upon returning home, Moore served as a White House fellow, advising on issues of national security and international relations.

In 2010, he wrote "The Other Wes Moore," both a memoir and a biography about the fragile nature of opportunity in America, which became a New York Times bestseller. He went on to write other bestselling books that reflect on issues of race, equity and opportunity, most recently "Five Days," which tells the story of Baltimore in the days following the death of Freddie Gray in 2015.

Moore also built and launched a Baltimore-based business called BridgeEdu, which reinvented the first year of college for underserved students to increase their likelihood of long-term success. BridgeEdu was acquired by the Brooklyn-based student financial success platform Edquity in 2018.

His commitment to taking on our toughest challenges brought him to the Robin Hood Foundation, where he served for four years as CEO. During his tenure, the foundation distributed over \$600 million toward lifting families out of poverty, including in Maryland.

Doctoral Degrees

The doctoral degree is the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally doctor of audiology, doctor of medicine, juris doctor, doctor of pharmacy and doctor of veterinary medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees on March 9, 1841.

Master's Degrees

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts and Master of Science degrees in fields other than agriculture.

Bachelor's Degrees

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. Maryland Agricultural College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts and Bachelor of Science degrees in 1862.

Special Recognition

SENIOR MARSHALS

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administration and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

University of Maryland Police Department

Extra special thanks go to the Office of the Registrar and the Graduate School.

Heartfelt thanks go to the many volunteers who assist with the campus-wide and individual college and school ceremonies. These efforts are greatly appreciated.

DO GOOD NOW

The University of Maryland is proud to be the nation's first Do Good Campus. As a global leader in advancing social innovation, philanthropy and nonprofit leadership, we remain fiercely committed to our mission of service.

We created the Do Good Institute to serve as the campus hub of social impact and innovation and launched the Do Good Challenge and Do Good Accelerator to scale up the impact of student projects and ventures. We invested in new research on civic engagement and expanded opportunities for students to learn about and practice giving back. And we are just getting started.

As graduates of the university, you are now agents of change and progress. Your experience here has equipped you to do good in your professional and personal lives. You are ready to help build a Do Good world.

For more information, visit dogood.umd.edu.

The May 2024 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of the Registrar.
